DSC (388.A1)

IN PERSON

6 SEMESTERS (3 YEARS)

NEW

OFFERED IN FRENCH AND IN ENGLISH

This six-semester program (2,670 hours) leads to a Diploma of College Studies (DCS) and is offered inperson. This program is designed to train technicians who can effectively carry out social intervention processes. These interventions are tailored to address the specific social needs of individuals, families, groups, or communities ethically, taking into account the issue at hand, the target clientele, and the chosen intervention.

This program includes 840 hours of internship, spread across four different internships.

Profile

This program is for individuals who are curious about societal issues, possess a critical mindset, and demonstrate strong resilience and adaptability. They are empathetic, non-judgmental, and skilled at active listening.

Admission Requirements

Applicants must hold a Secondary School Diploma (SSD), a Diploma of Vocational Studies (DVS) or have studies deemed sufficient by the College. (Visit website for details).

Where Does it Lead?

With this DCS, social work technicians can work in various settings:

 - etc.
- **Community sector**
 - Youth centre
 - Women's shelter
 - Respite centre
 - etc.

*For the latest information, please visit the College's website.

Advantages of the program

Why Choose this program?

- This program includes **four different internships**, the first of which is an observational internship starting in the second semester, allowing students to determine whether the field is a good fit for them. The final internship consists of 28 hours per week and offers students a fully immersive experience that enhances direct hiring opportunities upon graduation.
 - Graduates of the College are **agents of change** ready to make a difference from day one, thanks to training focused on real-world practice, the use of AI, and an inclusive approach.
 - Students benefit from **passionate and experienced teachers** who are experts in their fields.
 - **Motivating learning environment:** The program prepares agents of social change who can work inclusively, ethically, and inter-professionally— essential qualities valued by all employers in the network.
 - **AI to support intervention, competitive program:** integrating artificial intelligence into training helps students improve performance, stay current, and work more efficiently.
 - Includes **case studies and real-world simulations** to provide hands-on experience and thoroughly prepare students for workplace demands.
 - Courses are offered **remotely every Friday**, offering a beneficial **hybrid formula** that helps students manage their time effectively and boosts productivity.
