Paralegal

Paralegal Technology

UPDATED PROGRAM

Communication and the development of critical analytical skills.

Are you interested in law and legal concepts? Our specialized Paralegal Technology program equips you with the theoretical knowledge and practical skills needed to become a **versatile professional** in the legal field. You will learn to collaborate with judges, notaries, lawyers, and other legal professionals.

This program focuses on practical training, aiming to produce highly competent legal technicians who are well-prepared to enter the job market.

Includes an internship period at the end of the program.

Admissions Requirements

Applicants must hold a Secondary School Diploma (SSD), a Diploma of Vocational Studies (DVS), or have studies deemed sufficient by the College. (Special requirements apply; please visit the website for more details.)

Where Does it Lead?

Graduates of the Paralegal Technology program can directly enter the job market in various roles, such as paralegals and clerks, working for a range of firms and companies. **Additionally, they are eligible to pursue the specialized training required to become bailiffs.**

Moreover, graduates with a DCS can choose to continue their university studies in law or in other programs.

Equivalence Credits

Our DCS graduates in Paralegal Technology who wish to continue their studies in law will receive the following equivalence credits **(in accordance with admission requirements)**:

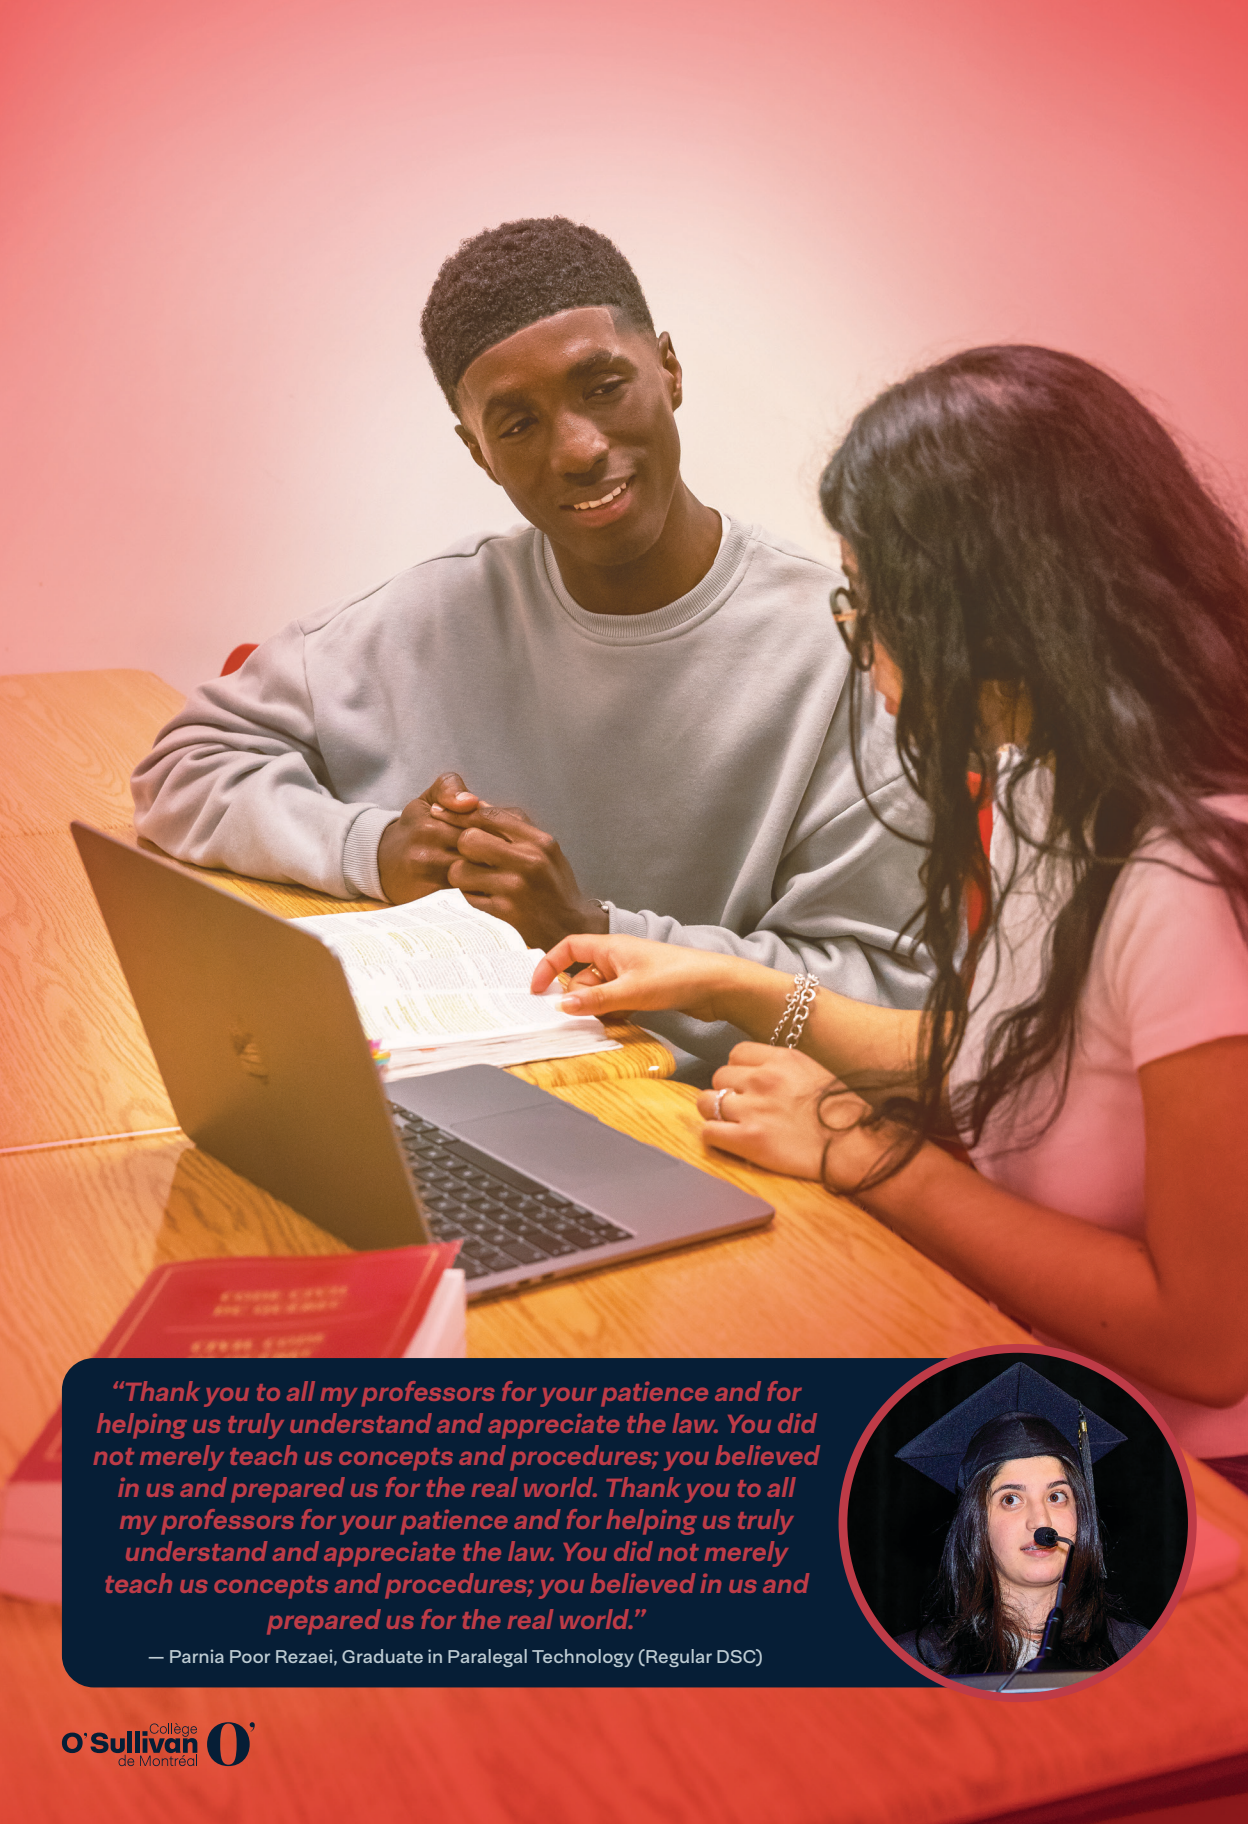

- Université Laval: 12 applicable credits
- Université de Sherbrooke: 6 applicable credits
- Université d'Ottawa: 9 applicable credits
- Université de Montréal: 7 applicable credits

Advantages of the Program

Why choose this program?

- The program **includes an internship** during the last semester, allowing you to apply your learning in a real-world setting and gain practical experience in the field. **(Internships last 15 weeks for the DCS programs and 6 weeks for the ACS programs.)**
- The program places students at the heart of legal practice by incorporating practical application into every course, transforming learning into hands-on experience in real time throughout their studies.
- To enhance students' public speaking skills, we offer a **Debate Club**. It allows students to develop their communication skills while discussing important issues that shape our world, culminating in a final debate competition.
- The faculty of teachers consists of **professionals in the field**, including experienced lawyers, notaries, and bailiffs, who are passionate and dedicated to conveying their knowledge and expertise.
- The program is enriched with **numerous hours of training in the computer laboratory**, combining theoretical knowledge with practical applications of legal software.
- The program includes a **legal clinic** designed to offer students the opportunity to handle client cases in real time and put what they have learned into practice.
- Additionally, students participate in **trial simulations** that provide practical experience and a concrete opportunity to develop their skills effectively.
- Students also have several **networking opportunities** and activities, such as conferences with judges and industry professionals, courthouse visits, reunion events, and more.

"Thank you to all my professors for your patience and for helping us truly understand and appreciate the law. You did not merely teach us concepts and procedures; you believed in us and prepared us for the real world. Thank you to all my professors for your patience and for helping us truly understand and appreciate the law. You did not merely teach us concepts and procedures; you believed in us and prepared us for the real world."
